

# BHL CONNECTOR

*Disconnectable Crimp style connectors*

**Low profile connector with high withstanding voltage, designed for connecting liquid crystal display backlight lamps to their starters. The BHL connector is 2.8mm thick, so the mounting height is only 3.0mm.**

## Features

### • Contact lances

Contacts are secured in the housing by their spring action, thus fully shrouded. This helps improve the withstanding voltage.

### • Anti-misinsertion housing

The housing has mis-insertion preventive guides on both sides. Housing locks prevent release of the housing that might result from vibration or shock.
